

## OSC 92PT104 Digital Vacuum Gauge

### <Features>

- Diaphragm type absolute pressure vacuum gauge.
- Absolute pressure measurements are independent of gas elements.
- Table type, used combinedly with panel, devices can be also built-in.
- Easy to read LED display
- Bar graph, displaying analog output condition
- RC232 communication output
- Comparator output attached

### <Specifications>

Model	OSC 92PT104
Measuring range	0.1 ~ 133.3kPa / 0.10 ~ 20.00kPa
Accuracy	±0.25% FS

## OSC 92PT105 Pirani Vacuum Gauge

### <Features>

- It adopts shock proof and shaking proof sensor by means of microsize filament of the sensor.
- Comparator output attached

### <Specifications>

Model	OSC 92PT105
Measuring range	$2.0 \times 10^{-1} \sim 2.0 \times 10^3 \text{Pa}$
Analog output	0 ~ 5V
Communication output	RS-232C
Dimensions	W96xH96xD47mm

## OSC 92PT106 Pirani Vacuum Gauge

### <Features>

- Displays mantissa 2 digit and index 1 digit.
- Can be used in both ways of table top and panel mounting, also possible to build-in the apparatus.
- Easy reading digital LED display
- With bar graph to indicate analog output status
- With comparator output

### <Specifications>

Model	OSC 92TP106
Measuring range	$2.0 \times 10^{-1} \sim 2.0 \times 10^3 \text{Pa}$
Communication output	RS232C
