

OSC 997NB003 Aspirator

<Features>

Use heavy duty pump 150W for water circulation keep stable pressure.
Two Aspirators , high air exhaust 16L~ 18L/min , rapid got required vacuum.

<Specifications>

Model	997NB003			
Vacuum	5	10	20	30
	7mmHg	12mmHg	20mmHg	28mmHg
Exhaust Air	16 ~18 L/Min x2			
Pump	Induction motor 150W			
Tank	Polypropylene tank 10L			
Suction Port	Two suction port 8 mm			
Drain	Overflow nozzle 1705 mm			
Aspirator	2 Pieces			
Power	110V/220V , 260VA			
(mm)	360D x 240W x 390H			

<Options>

- Cooling coil connects cooling circulator for reduce temperature effect.
- Option Vacuum gauge and S.S. Tank for use with filtration device or evaporator.

OSC 997NB004 Heating Mantle for Extractor

<Features>

- Max. temperature 450 with Option Clamps
- Multi-unit with stirrer is also available.
